MEDIA: Photoshop, Illustrator, After Effects, Final Cut Pro

FRAMEWORKS: Bootstrap 2 & 3, Symfony2 (PHP), Visual Studio (ASP.NET)

OPERATING SYSTEMS: Linux, Mac, Windows

VERSIONING: Git, Subversion

[EDUCATION]

PHILADELPHIA UNIVERSITY. B.S. DIGITAL DESIGN, 2007

[EXPERIENCE]

FREELANCE: FRONT-END DEVELOPER, 2013-PRESENT

Build fully responsive websites, mainly through a CMS such as WordPress or Drupal 7

Work directly with clients, designers, and other developers to achieve the ultimate goal of the project

Assist and advise on design decisions when necessary

Test for cross-browser and cross-device compatibility

Update and maintain content for long-term clientele

WEBMAX: FRONT-END DEVELOPER, 2014-2015

Worked with clients ranging from local real estate agents to major national mortgage lenders

Gained a thorough knowledge of the Symfony2 PHP framework using a feature-rich proprietary CMS (MortgageWare)

Helped build and maintain 20+ custom responsive themes based on either new designs or existing websites

Faced the many challenges of working with dynamic, user-generated and database-driven content
